Mr C. Mbekela

Supervisor's Report on Shift in Studies from MA to MBA

This letter serves to confirm our discussion of your intention to convert the study for a MA degree to a MBA degree. It became clear that your personal and professional ambitions will be better served by switching to a MBA degree. The latter degree is a logical extension of your focus on human resource management. You will therefore simply continue - under the guise of a new degree - with your present analysis of managerial structures and strategies.

On behalf of the Department I wish you the best of luck in the continuation of your studies. We have no doubt that will be able to draw extensively on the material covered in our department in your future studies.

Regards

(G. Klerck - Lecturer)
